The News.

The steamer *Vanderbilt* brings us European dates to the 3rd inst. The Liverpool breadstuffs market was very dull and wheat was tending downward. The London money market remains without change. The formation of a new Company, with a capital of a million and a half sterling, to lay another sub-marine Cable, was talked of. Several battles had taken place in India, all resulting in the success of the British troops.

We have news from Havana, by the steamer *Philadelphia*. Sugars are reported lower.

They had good sleighing at Oswego yesterday, and it was snowing fast.

The steamer *Fulton City* struck a snag between Pittsburgh and St. Louis, on Thursday, and sank, drowning 12 deck hands.

Flour advanced 5 to 10 cents, while wheat was firm and quiet, in the New York market yesterday. Our own wheat market remains unchanged.

The weather yesterday was cold and bracing, and though rather more wintry than desirable for the season, was much preferable to the damp and rainy weather of last week and the previous one.

THE PRAIRIE DU CHIEN ASSEMBLYMAN.—The vote in the Prairie du Chien Assembly District is unexpectedly close. Hoffman, (dem.) has 187 majority in Crawford Co. but Badax Co. has given Tower (rep.) about the same, perhaps a little more, perhaps a little less.—*Madison Argus*, (dem.)

The doubt in the Jackson, Buffalo, &c., district is resolved in favor of Dr. BENNETT, Republican, who has some 250 majority. The Portage District is very close, with the chances in favor of YOUNG (dem). In the St. Croix District, GIBSON, is a few votes ahead, with La Pointe to hear from, which will probably elect MCCRACKEN, (dem.) Conceding all three Districts to the Democrats the next Assembly will stand, Republicans 52, Democrats 44, Independent 1—Republican majority over all *seven*.

BENNETT ELECTED.—The majority for Dr. Jesse Bennett, Republican candidate for Assembly in this District, in the counties of Jackson and Trempeleau, is 193, with Buffalo to hear from. Last year Prickett, dem., had a majority in Buffalo County of 107, and it is hardly probable that Finkelaburg will increase that majority; the probabilities are rather the other way. So we feel safe in setting down the election of Dr. Bennet as a sure thing.

P. S.—The *Nord Stern* of Nov. 6 states that Bennett has a majority in Buffalo Co., and is, of course, triumphantly elected.—*Jackson County Banner*.

This is a handsome gain, and speaks well for Dr. BENNETT's standing among his neighbors Last year the District was represented by PRICKETT (dem.)

GOVERNOR STANTON.—The Washington *Star* charges that Hon. FRED. P. STANTON "has turned Republican," and means to come out as a candidate for Senator in Kansas.

The Sham Democracy seem to have bad luck with their Kansas Governors. None of them could stand the *sort* of work required at their hands.

NARROW ESCAPE.—At Appleton, last Tuesday, the Larrabites fired a hundred guns—or rather this was the number they intended to fire—in honor of the election of the "Big Whiskered Boy." The *Crescent* says that the boys, letting their enthusiasm get the better of their prudence, loaded the gun to the muzzle, and on discharging it burst to fragments. There was quite a crowd around the gun at the time, but fortunately no one was hurt.

DROWNED.—Mr. O. R. RUBLES, one of the most estimable citizens of the town of Ellington, Outagamie Co., was accidentally drowned, a week ago, Saturday, while getting logs into a mill. He stepped upon a log when it rolled over and he fell into the pond. Coming to the surface he threw his hands upon the log, when it turned over, and he sank to rise no more. We get these particulars from the Appleton *Crescent*.

Dunn County.

DUNNVILLE, Nov. 9, 1858.

Editor of Eau Claire Free Press:—Dear Sir:—The official canvass of our county shows Dunn's majority to be 38; Gray's majority 15.

The whole Republican county ticket is elected, except Clerk of the Board and Clerk of the Court, which offices are filled by a staunch Republican running on the People's Ticket, and the only man they could elect—the others being "Democrats."

Respectfully,
C. S. & E. R. BUNDY.
—*Eau Claire Free Press*.

Buffalo County.

FOUNTAIN CITY, Nov. 6th,

FRIEND PATTERSON;—Bennett is elected by about 200, as near as we can ascertain. In Jackson county 7, Trempeleau 150, Buffalo 50. There are several towns not heard from as yet, which will increase it some. Bennett ran about 15 ahead of Washburn in our county. The vote was light all through our district,—not over one half voted in our county.

Yours, truly, J. D. LEWIS.
—*Eau Claire Free Press*.

SAUK COUNTY ELECTION RETURNS COMPLETE—REPUBLICANISM GLORIOUSLY TRIUMPHANT!—As will be seen by the following table, Sauk County has done nobly. She has given 918 majority for Washburn, and 640 majority for Curtis, besides electing two Republican Assemblymen (her full quota:)

A Republican Register,
A Republican Sheriff,
A Republican Clerk of Court,
A Republican Dist. Attorney,
A Republican Clerk of Board,
A Republican Treasurer,
A Republican Surveyor,
And a Republican Coroner,

She likewise gives 1,825 for the Bank Law Amendments, to 2 against them.—*Baraboo Republic*,

DELAWARE.—The Opposition in Delaware did well in the late election. Buchanan carried the State, two years ago, by a majority of 1,828.—Now, the Administration candidate for Governor, William Burton, has a majority of only 204. In the last Legislature the Opposition had not a single member in either branch. The Legislature just elected stands as follows:

	Democrats.	Opposition.
Senate,	7	2
House,	14	7
Total,	21	9

William G. Whiteley (Dem.) is re-elected to Congress by 410 majority, against 1,751 two years ago.

Delaware will be all right in 1860.

NO MORE SECOND CLASS CARS.—It is stated that all the railroad companies between New York and Chicago yesterday discontinued the running of second class cars. The emigrant trains will do the second class business, and the fare on the latter has been raised from five to seven dollars between Buffalo and Chicago.—The first class fare is fifteen dollars from Buffalo or Suspension Bridge to Chicago.—*Buffalo Commercial, Nov. 13.*

A Deed from a Father to a Son Void in Alabama, if the Child has any African Blood.

A gentleman who resided a long time in Mobile, in Alabama, and owned a large estate there, afterwards moved to New Orleans, and finally went to France with his family and there died. Before death he conveyed to his children his property in Alabama by deed. He did this to avoid any of the difficulties that sometimes attend wills, and supposed he had secured his property to his children beyond a per adventure, but the Courts of Mobile have decided that the deeds are void because the children are within three degrees of African descent, and because they were not born in Alabama, but in New Orleans, while the father was residing there.

We take the following from the decision of the Court, as given by Chancellor Keyes, and reported in the Mobile *Times*:

Every person born without the jurisdiction of a State is an alien to that State, unless such person come within some exception to the general rule. The natives of Louisiana would, therefore, all be aliens to this State, but for the Constitution of the United States. The Constitution of the United States does not give privileges and immunities in the State of Alabama to any of the inhabitants of Louisiana, except citizens of the United States. Negroes are not, and cannot become citizens of the United States. Dred Scott vs. Sanford, 19 How., 393. The fact that free negroes owe allegiance to their native State, or to the Federal Government, cannot affect the question of State alienage in another State.

The general rule is that aliens may take land and hold it and enjoy it until office found; but that is true only of aliens who are not forbidden by the policy of the State to become inhabitants of it. The defendants named are free negroes and aliens, and they cannot come to this State without violating our public policy, and they could not remain in it without being guilty of a felony. Those persons who cannot come into our State, cannot take by livery of seizin; and those who cannot take by livery, cannot take *in praesenti* by deed—for the latter mode of conveyance is a substitute for the former. But, independently of that technical rule, it would be idle to argue that a class of persons may become the owners of our lands, when our laws punish inhabitancy by them as a felony; and still more idle would it be to argue that though they cannot occupy our lands themselves, yet they may hold them by agents and receive the profits through the hands of our citizens.

From Washington.

Special Despatch to the N. Y. Tribune.

WASHINGTON, Nov. 10.

Notwithstanding the great augmentation of the Douglas faction in the Capital since the election, the President is as implacable as ever. The Administration threatens war to the knife against Douglas.

Though Mr. Erastus Corning has been summoned to the President's presence, ostensibly for purposes of consultation about the tariff and the Pacific Railroad, there is no doubt that Secretary Cobb's removal from the Treasury is contemplated.

Steamboats.

FOR GRAND HAVEN—The steamers *Arctic* and *Cleveland* leave Johnson & Olmsted's dock every afternoon & evening, (Sundays excepted,) at 12:15 and 9 o'clock, for Grand Haven, connecting with the Detroit & Milwaukee Railway for the East.

FOR TWO RIVERS.—The steamer *Forester* leaves every morning, (excepting Sunday,) at 7½ o'clock, from same place, for Two Rivers, stopping at Port Washington, Sheboygan and Manitowoc.

Propellers.

FOR BUFFALO.—A line of propellers run to and from Buffalo, one of which leaves this city daily.

FOR OGDENSBURGH.—A tri-weekly line of propellers also run to Ogdensburgh.

GRIFFIN & BRADLEY, at the foot of East Water street, are the Ticket Agents for both of these propeller lines.

FOR COLLINGWOOD.—A tri-weekly line of propellers run to Collingwood, stopping at intermediate ports, and leaving this city on Sunday, Wednesday and Friday of each week. L. D. JEROME, Agent.

New Steamers for the Detroit & Milwaukee R. R.

We learn from undoubted authority, that the Detroit & Milwaukee Railway Company have ordered two ocean steamers of the following dimensions, viz: Length, 235 feet; beam, 34 feet; cylinder, 60 inches in diameter, and 12 feet stroke. Their speed guaranteed not less than 17 miles per hour. Saloon on deck full length of ship. They will be masted and rigged on the seagoing principle, everything connected with the safety and comfort of passengers will be carefully attended to, all their equipments being of first class order. They will be built according to specifications, and under the eye of an experienced Superintendent.

From this, it appears that the President and officials of the Company, are determined to make this route worthy of our city. It will, therefore, become a matter of duty for our commercial community, and others, interested in the welfare of the road, to aid and support it in every possible manner, and such can only be shown by the number of passengers, and quantity of freight our good city gives to support the company. We find in comparing the Freight tariff lately issued, that the rates of Eastward and Westward bound freight are the same as to Chicago. By this liberal policy they are placing our commercial community in the position of Chicago merchants, (such was never enjoyed before,) thereby enabling Milwaukee to compete for the trade in the States of Wisconsin, Minnesota and Northern Iowa. Our merchants will at once see the advantage this route will be to the trade.

COMMON COUNCIL MEETING.—There is to be another special meeting of the Board of Councillors this evening, to consider the subject of levying taxes for the current year, the Board having disagreed as to the amount necessary to be levied, at the meeting on Saturday night, Councillor HADLEY contending that the tax proposed for school purposes was not sufficient, and Councillor WALDO insisting that they had no authority to raise more than $175,000 for general city expenses, according to the charter amendments.

The Finance Committee recommended the levying of a tax of 7½ mills on the dollar of assessed valuation of property, for the purpose of paying the annual interest on the city debt, the sinking fund, and the extinguishment of the funded debt, and 4 mills on the dollar for the current expenses of the city. This would raise a tax equal to the amount allowed by the charter for the latter purpose.

Councillor Hadley expressed the desire that, before levying a tax, the Council should be informed as to what disposition had been made of the bonds issued in August last, and placed at the disposal of the Mayor to take up past due indebtedness of the city. A warm debate grew out of the subject between Messrs. Waldo and Hadley, which, however, resulted in nothing very definite, the Board adjourning at a late hour, to this evening.

OPENING OF THE CHAMBER OF COMMERCE.—The new rooms of the Chamber of Commerce in the *Free Democrat* building, at the west end of Spring Street bridge, will be formally opened this evening, and, hereafter, our grain dealers and merchants will do business there on exchange. E. D. HOLTON, Esq., delivers an address before the association this evening, and there will be speaking by one or two other gentlemen.

A CHANGE OF WEATHER.—Sunday the weather cleared off cold and "Jack Frost" took hard hold that night. Yesterday was a beautiful bright day, with the air sharp enough to make fingers and ears tingle, and render out-door exercise delightful. It will take some days yet, however, for the roads to wear down smooth.—They were rough enough yesterday morning.

INSANE.—A rather good looking young girl was taken into the Station House yesterday morning, wildly insane. Policeman KESSLER found her in a house of ill-fame, breaking the windows and committing all manner of violence upon the other inmates of the house. While the policeman was conducting her to the lock-up she shouted and sang wildly, pulled her hair, and rent her garments whenever she could get her hands loose; when locked up in one of the cells she continued tearing her clothes and raving madly until quite exhausted.

In the course of her wanderings she frequently mentioned the name of a young man of this place well known to the sporting fraternity. She presented a pitiful sight indeed, and upon contemplating her deplorable condition, we could not but think that "the way of transgressor is hard," indeed.

After being kept some time in the Station House, the unfortunate girl's mother came and pacified her somewhat, and then took her away. The reader will be disappointed to learn that the mother of this poor girl brought her own daughter to this degraded and wretched condition, and is the keeper of one of the vilest houses that curse our city.

THE METROPOLITAN STORE.—Pretty nearly everybody knows SAM CHANDLER, the proprietor of the Metropolitan Dry Goods Store, No. 199 East Water Street, but only those who have had the good fortune to trade with "SAM" know at what astonishingly low prices he is selling his goods. His motto is "quick sales and small profits," and as this fact becomes known, the customers of the Metropolitan Store increase in about the same ratio. The ladies will do well to bear these facts in mind, and also to remember that SAM CHANDLER has recently replenished his stock with an elegant lot of new goods especially designed for winter wear. Above all things they should not forget that the Metropolitan Store is *the* establishment we refer to.

THE MUSKRATS AGAIN—AN OPEN WINTER.—The La Crosse *Democrat* says:

Every where upon our neighboring marshes, the Muskrats are building their winter houses on comparatively high ground, or pretty much out of water. By the testimony of the "oldest inhabitants," this fact always foreshadows an open winter. If a hard, freezing winter is at hand, the muskrats build low in the water, to keep under the ice. If an open or mild winter approaches, they keep nearer the surface.

The muskrats proved true prophets last year.

POLICE COURT YESTERDAY.—T. H. Leonard, intoxicated, fined $1.

Christopher Bristoff,	intoxicated,	fined	$1.
Moses Thomas,	"	"	$1.
John Spalding,	"	"	$2.
John Hickey,	"	"	$2.
John Berner,	"	"	$1.
John Schultz,	"	"	$1.
John Kossly,	"	"	$1.

"John" is patronizing the Police Court quite extensively now-a-days.

INSTRUCTION IN FRENCH AND ITALIAN.—It will be seen by the card of the Rev. Mr. PEDELUPE, city missionary, that in order to sustain himself and family during the coming winter, he is compelled to solicit patronage as a teacher of the French and Italian languages. We know him to be a competent instructor, as he has proved himself to be a faithful and zealous missionary.—We hope, therefore, that he may find scholars enough to employ all his leisure time during the long winter months.

HOW TO MAKE OLD SLEIGHS LOOK AS GOOD AS NEW.—Now that sleigh time is so close at hand, our readers will be glad to learn how to make their cutters and sleighs look about as good as new for a trifling sum, and they will thank us, no doubt, for informing them that Messrs. RASTALL & VIRMOND, over BUTLER & BOWER's Livery Stable, near the Post Office, are the very men who can do this. They also paint, varnish, and ornament carriages and buggies, in the best style and on the most reasonable terms.

HUNGARIAN WINES.—Mr. D. FISCHBECK has accepted the Agency for the sale of the choice Hungarian Wines, imported by FREUND & GROSSINGER, New York. These wines are both cheap and pure, and possess a remarkably fine flavor. Mr. FISCHBECK is in receipt of a large stock of all varieties and qualities of the Hungarian Wines, which he offers low for cash. His place of business is No. 14 Murray's Block, Market Square.

MR. SENTINEL:—The Daily *Wisconsin* says the Young Mens' Association can sell 1000 tickets at from 6 to 10 cents each—pay lecturers from $50 to $100 each—and make money for the Association, after paying for Hall, advertising, &c. Will you ask the mathematical editor of that paper, how it can be done, and oblige a

SMALL BOY.

DANCING.—Prof. J. A. MAY, it will be seen, is about opening a new and select Dancing School in YOUNG's new block, corner of Wisconsin and Main Streets. In addition to the art of dancing, Professor MAY teaches a new system of calisthenic exercises for promoting physical development and graceful deportment. Prof. MAY will open his rooms on the 20th inst.

EQUESTRIANISM.—The first premium for horseback riding at the Fair in Franklin county, Mass., was awarded to Mrs. Merrill, a lady seventy-seven years old. She is mother of the Messrs. Merrill, formerly of Merrill's Band of this city. She rode with much ease, and grace. We have frequently seen the lady. Her hair is still dark and luxuriant (not colored by any means) and in fact we have never seen a woman of her age better preserved, or more youthful.—*Free Democrat*.

BALL OF ENGINE CO. NO. 3.—The members of Engine Co. No. 3 have a ball on the evening of the 24th, at the Republican House. Three's "boys" always get up good parties, and this will be found equal to any former one. Give them a hand, by buying a ticket.

MISSIONARY CHURCH.—The Rev. Mr. PEDELUPE, who intends to build a Mission Church next year, has engaged, as a place of public worship, in the meantime, a room on Third Street, west side of the river, just opposite the City Mills and Engine House of No. 3.

MILITARY ANNIVERSARY.—The Milwaukee City Dragoons, Capt. DAVID GEORGE, celebrate their twelfth anniversary *to morrow* by a parade on Market Square, at 10 o'clock in the morning, and a ball and supper at the Hotel Wettstein in the evening.

FOR BUFFALO.—The staunch propeller *Milwaukee* will leave this port for Buffalo *to-morrow* morning. For passage, &c., having good accommodations, apply to GRIFFIN & BRADLEY, foot of East Water street.

RENTS.—J. S. FILLMORE has for rent a house on Prospect street, with six rooms, kitchen, &c., at $6 per month; also a house on Jefferson street, near Biddle, rent $10 per month.

☞ It will be found by calling at No. 16 Wisconsin st., Demor & Raymond's, that C. S. Maltby is still shipping his celebrated and unrivaled Oysters to his Agent, H. Cooke, of Chicago, from whom they are being supplied. Do not believe all that is said about Oysters, but call at No. 16 Wisconsin st., and try some of those large counts. They will go down easier than all the yarns that are being told.

They are but three days after being taken out of the shell, and are neatly put up in air tight tin cans, stamped on the cap at the unequalled Packing House of Mr. Maltby, in Baltimore, and are received fresh daily per Express. DEMOR & RAYMOND.

N. B.—Don't believe that H. Cooke, of Chicago, is going to stop sending Oysters to Milwaukee yet awhile.

The London money market was unchanged.—Consols for money 98a98⅛, and for account 98¼.

THE NEW YORK TRIBUNE,
1858-59.

THE New York Tribune, now more than seventeen years old, which was the first journal in the world that appeared regularly on an imperial eight-page sheet at so low a price as two cents, and which has attained the unparalleled aggregate of more than 200,000 subscriptions, respectfully solicits its share of the patronage which the Metropolitan Press is henceforth to receive.

Within the present year THE TRIBUNE has provided itself with a new and faster Press, at a cost of $30,000, merely that some of our subscribers may receive their papers a mail earlier than they otherwise might do. With correspondents at the most important points throughout the civilized world, and a staff of writers chosen from among the best in the country, we believe that even those who dislike the politics of our sheet concede to it frankness in avowing its convictions and ability in maintaining them. We appeal then, to those who believe that an increased circulation of THE TRIBUNE would conduce to the political, intellectual and moral well-being of the Republic, to aid us in effecting such increase.

THE DAILY TRIBUNE is printed on a large imperial sheet, and published every morning and evening, (Sundays excepted), and mailed to subscribers for six dollars per annum in advance; $3 for six months.

THE SEMI-WEEKLY TRIBUNE is published every TUESDAY and FRIDAY, and contains all the Editorials of the Daily, with the Cattle, Horse and General Markets reliably reported expressly for THE TRIBUNE; Foreign and Domestic Correspondence, and during the coming session of Congress it will contain a summary of Congressional doings with the more important speeches. It will also contain a first-class Novel, continued from number to number; thus affording a first-rate family newspaper to those who prefer not to take a Daily.

TERMS:

One Copy, one year..	$3
Two copies, one year	$5
Five copies, one year	$11 25
Ten Copies, *to one address*	$20

THE SEMI-WEEKLY TRIBUNE is sent to Clergymen at $2 per annum.

GREAT STAND for any business in this City. No stand equal to it. I will lease the present store room I now occupy for eighteen months, to some good and responsible person. For a grocery store the stand is superior. For a Lager Beer Hall its equal cannot be found. For a Butcher's Stand it surpasses anything in this City.

My reasons for letting it. I have not room enough, I must get a larger store, where I can store Goods, Furniture, &c. If I had such a store room on this corner, I would not give it for any three stores in the City, but as it is, my good landlord does not feel willing at present to put up such a store as I want. I am therefore compelled to let a larger one in the City, to answer the calls of business. nov5 CALEB WALL.

MILWAUKEE:
TUESDAY MORNING, NOV. 16.

Samples of "Hard Ciphering."

The Madison *Argus*, the "official" organ of Sham-Democracy in this State, is sorely discomfited by the result of the late election, and sadly puzzled to account for it. Having, like the *News*, predicted in advance the entire overthrow of the "Black Republicans," and the certain success of the Sham-Democracy, its credit as a prophet is gone, unless it can explain satisfactorily to its mistrusting readers, how it happened to have made so bad a guess. The *Argus*, therefore, in its Friday's issue, undertakes, with the help of sundry "ifs," to account for the matter. Here is the *Argus*' statement of the case:

THE RESULT IN THE STATE.—The result in Wisconsin may be briefly summed up. We have gained a Congressman, have gained two in the State Senate, and left everything else as it was last year. (1.)

The popular majority against the Democracy, is located entirely in the first Congressional District, and, whenever Milwaukee gives her full Democratic majority, the Democrats will carry the State. (2.)

The total vote on Congressmen, is about 3,000 Republican. Two years ago, it was about 15,000. (3.)

Let us analyze this "official" statement.

1. "Last year," the Democracy carried two of the three Congressional Districts; this year only one. Last year, they elected seven Senators and this year exactly the same number.

2. The "popular majority against the Democracy" is quite as large in the Second as in the First District. The time has gone by when Milwaukee will give such a "full Democratic majority" as will enable the Democrats to carry the State.

3. The Republican majority on Congress is 5,500 to 6,000. Two years ago, it was just 12,704. The *Argus* stretches its cloth at *both* ends. "Last year," the Democrats beat us about 450 in the State on the popular vote. This year we beat them from *five to six thousand.*

Having disposed of Congressmen and the popular vote, the *Argus* next tries its hand on the Legislature, as thus:

The Senate stands as before reported—14 Democrats and 16 Republicans. Had Milwaukee elected the Democratic candidate, the Senate would have been *tied*—15 democrats and 15 Republicans. (1.)

In the Assembly the unexpected loss of the Sheboygan member, and the election of Ormsby, (ind. rep.) in the Marquette district makes the majority about five against us. (2.)

Had the Democrats merely held their own in their strongest districts, and where the general Democratic ticket received its best majorities, the Legislature would have been Democratic in both branches. (3.)

1. Had Racine and Dane elected the Republican candidates, as they *should* have done, the Senate would have stood 18 Republicans to 12 Democrats.

2. In the Assembly "the unexpected loss" of one or two members in Dane, Waukesha, Racine and Waupacca Counties—to speak of no others—leaves us with only about 7 majority in that body. We ought to have had a dozen to fifteen.

3. Had the Republicans "merely held their own" in Dane, Sheboygan, Waupacca, Waushara, Marquette, Winnebago, &c., we should have carried all three Congressional Districts and large majorities both in Senate and Assembly.

However, except the loss of our faithful member in the Third District, the Republicans of Wisconsin, who went into the canvass against great discouragement and with sundry misgivings, have abundant reason to rejoice over the result. We have carried the State clean and gained full *six thousand* votes since last fall.

Conflicting Oracles.

The *Sentinel* is now fully committed *against* the State Assumption scheme.—*News of last week.*

The Milwaukee *Sentinel* is out *in favor* of the Randall Assumption scheme. Go in lemons.—*Madison Patriot of last week.*

We leave the assertion of one of these home organs of Sham Democracy to offset the declaration of the other: *neither* being true. The *Sentinel* has not come out "in favor" of the scheme, nor committed itself against it. It is far too important a question to be disposed of hastily, and, for one at least, we shall endeavor to give it the fairest and fullest consideration.

One thing, however, is already sufficiently obvious, and that is, the deliberate purpose of such ultra partizan prints as the Milwaukee *News* and Madison *Patriot*, to treat the Assumption Scheme, with sole reference to its political, rather than its practical bearings. If it can be turned in any way to political account, if they can manufacture any "political capital" out of it, well and good, they will use it for that purpose. Hence the early attempt of the *News*, to misrepresent the scheme; then its effort, under further advisement, to commit the *Sentinel* and *Free Democrat* against it; next, its announcement that the responsibility would rest upon the Republicans; and now, the characteristic *Patriot* trick of calling the measure "the Randall Assumption Scheme."

The meaning of all this is plain enough.—These organs are anxious to treat the question as purely a party one, and to cast the entire responsibility for its success, or failure upon the Republicans of the Legislature. We doubt whether the game will work. While our Republican friends will decline no responsibility that properly belongs to them, we are quite sure that they will not permit a measure like this Debt-Assumption Scheme, to be made a party test, or become a party cat-call. It must stand, or fall by its own merits. The embrace of party would be fatal to it and to party too.

BULLYISM RAMPANT.—The renowned pugilist, John F. Potter, has been re-elected to Congress Verily, the voters of the first district have faith in the "manly art" of "boxing."—*Weekly Jeffersonian.*

It was precisely this style of *argument* which the *News* mainly employed, during the recent canvass, to prejudice Mr. POTTER in the estimation of the electors of the First Congressional District. How the *News* fared in the business, the result sufficiently shows. If the *Jeffersonian*, none the wiser for the *News*' experience, thinks it either polite, or honorable, to continue these low attacks upon Mr. POTTER, the Republican press will interpose no objections. The electors of the First District have honored themselves in re-electing JOHN F. POTTER by so triumphant a majority.

COMMUNICATION WITH THE EAST THIS WINTER.—J. C. Burbank has recently received from Concord, N. H., a lot of finely furnished and comfortable stages and sleighs, which he intends putting on the road between this city and La Crosse, upon the close of navigation. We feel assured Burbank's line will be a little ahead of anything in the way of stages, ever seen in the Northwest. We believe it is the intention of the enterprising proprietor of the line to run through to La Crosse in two days, making the distance to Wabashaw on the first day.

In addition to Burbank's, there will be two other lines of stages run from St. Paul to connect with the railroad, this winter. One line will pass through Southern Minnesota—(Cannon Fall, Rochester, &c.)—and will strike the Mississippi, at McGregor, opposite Prairie du Chien.—The other line, will go via Hudson, Black River Falls, and other points in Wisconsin, to Sparta, on the La Crosse railroad, thirty miles East of La Crosse.—*St. Paul Pioneer, Nov. 11.*

DISAPPOINTED LOVE AND ATTEMPTED SUICIDE.—The Goshen, (N. Y.,) *Republican* of last week brings us the following story, which may interest some of our Wisconsin readers:

About the year 1855, ——— ———, a young man residing and engaged in the wagon-making business in Goshen, left here and went to Wisconsin, where he remained until five or six weeks ago, when he returned to our village. He had been here probably two weeks, when some of our citizens were startled by the arrival of a young lady in our midst, via the Erie Railroad. For a little time speculation ran high among a few as to who this young stranger could be; but the secret soon came out; she was one who had left her far off home in Wisconsin, and followed young ——— to this place.

It would appear that during his residence in the West, this young lady had formed a very strong attachment for him,—so strong, indeed, as to snap asunder the ties that bound her to kindred and home, and induce her to travel unattended and alone, over a thousand miles of railway to join him here. But alas! how short was her period of bliss! Before she had been here two weeks, ——— again left her, and it is said started for California. Before leaving however, he had taken her to the hotel of Mr. Taylor, at New Hampton, where he had engaged board for her.

On learning that he had again left her, she resolved to terminate her life and thus put an end to her woes. She accordingly procured a large dose of arsenic, which she took. It proved too great, and thus defeated her object. The poison was taken last week, and yesterday we were told she was fast recovering from its effects.—The young lady is said to be about 20 years of age, and is quite pretty.

RAIL ROAD JUBILEE!!—The Breaking Ground on the St. C. & S. Railroad will be celebrated at the City Hotel to-morrow (Thursday) evening.—Everybody is invited and a glorious time is expected. Jones' Quadrille Band will make the music.—*Hudson Star, Nov. 11.*

The *Star* advertises for 100 men to work on the St. Croix and Superior Railroad, and is quite jubilant in view of the fact that the commencement of the work is at last assured.

THE ART OF THINKING.—One of the best ways of improving the art of thinking is to think on some subject before you read upon it, and to observe after what manner it has occurred to the mind of some great master; you will then observe whether you have been too rash or too timid, what you have omitted, and in what you have exceeded; and by this process you will insensibly catch a great manner of viewing a question. It is right in study not only to think when any extraordinary incident provokes you to think, but from time to time to review what has passed; to dwell upon it and to see what trains of thought voluntarily present themselves to your mind. It is a most superior habit for some minds to refer all the particular truths which strike them, to other truths more general; so that their knowledge is beautifully methodized, and the general truth at any time suggests all the particular exemplifications, or any particular exemplification, at once leads to the general truth. This kind of understanding has an immense and decided superiority over those confused heads in which one fact is piled upon another, without the least attempt at classification and arrangement. Some men always read with a pen in their hand and commit to paper any new thought which strikes them; others trust to chance for its reappearance. Which of these is the best method to the conduct of the understanding, must, I suppose, depend a great deal upon the particular understanding in question.—Some men can do nothing without preparation; others little with it; some are fountains, some reservoirs.—[Sidney Smith.

From the Missouri Democrat.

THE SLAVERY QUESTION.

Hints Towards Gradual Emancipation in Missouri.

My next step in the discussion of the question of Emancipation will be to consider its Effect upon the Non-Slaveholding Laboring White Men.

I refer more particularly now to the men who labor for others, more especially day laborers and mechanics. "Won't setting the negroes free, bring them in competition with us, to underwork us and bring down our pay?" is a question often asked by these men. Let me answer by asking another. Can it be worse than having these same negroes work in competition with you, as they now do, for nothing? Again we are asked a thousand and a thousand times over, "Are not the wages of hired men higher in the slave States than in the free?" I know it is the practice with pro-slavery politicians to assert that such is the case. Again let me ask, is it not a general rule that where there is the greatest demand for labor, its compensation is the best—demand and supply governing prices in the labor market, as well as every other? Believing your answer will be in the affirmative, and taking as a conceded fact, what all men of intelligence know to be the case, and what the statistics of our own country prove to be the case, that in non-slaveholding communities there is the most progress the most enterprise, the most business—the building of the most railroads, the most towns, and the largest cities, and consequently the largest amount of labor created, is it not according to reason that there should be the largest demand for laboring men, and the best prices paid? Again let me ask you, if the negro slaves who now do a large portion of the labor of our State were set free and removed, as I have shown would be the result following emancipation, would it not greatly increase the demand for white labor, and enhance its compensation?

But this question of demand for labor has a deeper interest to the working man, than in the light I have been presenting it. I mean in view of the future. The working man must expect his sons, as a general rule, like himself, to be working men. As a true man he will look with quite as much anxiety to the country as a future field for labor, as to it for present employment. What encouragement can he derive from seeing a majority of its places of labor filled by negro slaves, with a possibility of a total exclusion of white laborers, depending upon the increase of the same population; for, while there are slaves enough to do the work of the country for nothing, proprietors will employ no others? What satisfaction can there be in leaving his children dependent for employment in the State of their birth, upon a race with the negro, knowing that in case of collision, the negro will be preferred? The whole history of the country demonstrates that in slave-holding communities, manufacturing upon any large scale will not flourish, and even the mechanic arts languish. When a community has invested all the capital she has to invest in labor, in slaves, it is clear that she never can manufacture with success. Slaves have neither the intelligence, the energy, nor the industry necessary. But when the capital which she invests in labor, is invested in the employment of freemen, then she can manufacture; as she can always select none but skillful workmen, which will be inducement sufficient to make nearly all workmen skillful. In the Free States manufacturing and the mechanical employments serve as safety valves for any excess of laborers over what the agricultural wants of the country demand. They open up avenues for labor, which are almost illimitable.

But remove the negro slaves, as I have shown emancipation will do, and what a wide field of free white labor is at once opened up. It is not simply man for man, who will be provided for—a white man for every black—but wherever the negro vacates, he leaves room for at least ten white men, as the comparative density of free and slave State populations will show; and as every white man is worth to the country at least ten negroes, it is easy to calculate how much the country will be the gainer by the exchange. But to return to the question of the comparative compensation of labor in free and slave States. If it be greater in the latter, as pro-slavery politicians claim, does it necessarily result from a cause favorable to the laborer? Laborers are men of intelligence, and consult their own interest as closely as any other class in the community, and if more money is to be made by them in slave States—all other things being equal—why do they not come over from the free States, until the increased competition restores the equilibrium? If the pay be greater in slave States, and yet laborers refuse to do this, it is proof conclusive that free labor in slave States, rests under some stigma or other disability, which brings it below a par with labor in the free States. This circumstance certainly presents no argument in favor of slavery. Manufacturers of needles live but a few years, owing to diseases brought on by the accumulation of small particles of metal in the lungs, and yet, it is said, they refuse to resort to any means of self-preservation, in their employment, lest it might diminish its hazard, and reduce their pay. The wages of needle grinders is accordingly said to be excellent; but few however, we suppose would consider this an argument in favor of the cause, to-wit, exposure of human life.

It there is a degradation in the white man's working by the side of the negro slave, or any other disadvantage attending free labor in slave States which repels the intelligent white laboring man of spirit, it only goes to prove the inferiority of the employment. It furnishes an argument against the cause of that inferiority to both employee and employer. High prices for labor must be unprofitable to the latter, and when labor becomes unprofitable to the employer, it must work the same result to the employee, because it cripples business, and so cuts off employment. But as a matter of fact, I deny in toto that slavery makes the wages of laboring men in Missouri, or anywhere else, higher than in free States. We have not the facts to prove it. We have the philosophy of the rule of demand and compensation to disprove it. Why should a class of men be paid more per day or month, or year, for doing one half or one-third of a given amount of labor, than if they had the whole to do? Why should they be paid more for doing that one-half or one third, because the balance is done for nothing?

The real question to the white laborer is not, however, how much money he can get for a day's labor, or for doing a certain piece of work, whether the most in a free or slave State, but in which can he most easily and quickly acquire wealth and social position? I answer, most emphatically, in a free state. Wealth accumulates the most rapidly there, as a comparison between the free and slaveholding sections of our own country shows. Where is the poor man most likely to acquire wealth—where it is, and where it is accumulating, or where it is not, or is stationary? In a free community wealth becomes most generally and equally distributed. The same comparison proves this fact. No one man can there engross the proceeds of the labor of hundreds of others, without paying an equivalent for it, as the slaveholder can, and hence one cannot there accumulate at the expense of hundreds. All through this argument we hold it to be a fact, that there is more activity and energy in free than in slaveholding communities—a proposition established by comparison as before, as well as to be inferred from the ordinary influences of free and slave labor.

This fact must not be overlooked in this connection. As in this country, wealth furnishes the only general standard of social position, it follows that social elevation can be much more easily acquired in free society than in slaveholding, if wealth can, which we have shown to be the case. Nay, more; social and political position can often be attained by the working man in the free States without wealth, when it would be all but impossible in a slave State. All acquainted with the workings of slavery, know that it is calculated to build up a class and an aristocracy of its own. It creates another distinction among men, where labor becomes the dividing partition. It is perfectly natural that men of wealth, who do not themselves labor with their hands, but have their labor performed for them by slaves, whom they despise and who are the regulators of society and its respectability, should regard with some contemptuous emotions, all those who labor with, beside, and like their slaves. It is perfectly natural that they should feel like denominating the laboring classes, the "mud-sills of society," as did slavery's distinguished champion, Gov. Hammond, of South Carolina. I don't know that *they* are to blame for such feelings—but slavery is.

Social and public position, however, depend not upon wealth alone. Education and intelligence have a good deal to do with them, and it is clear that education must flourish better in a community, where all are educated, than where only a part, as where instruction is forbidden to a portion by law. Let us see what the statistics of the country have to say about this point. Leaving out of the enumeration all foreigners, for whose intelligence this country cannot generally be held accountable, the census of 1850, of those of our native white citizens, over the age of twenty years, who cannot read or write, gives to the free States and Territories *two hundred forty-nine thousand four hundred and sixty seven*, with a white population of thirteen millions, and to the slave States and Territories *five hundred eighteen thousand, five hundred and nine*, with a white population of six millions—(249,467 to 13,520,650 518,509 to 7,222,418.) Of this unfortunate class Missouri with a white population of 592,004, furnished 34,420.

It will not be necessary to endeavor to prove that the thousands of uneducated in the slave States, are not to be found among the sons and daughters of the slaveholders and the wealthy. I might, if disposed, illustrate the truths I have been detailing, as to the social and educational condition of a large portion of the non slaveholders in the slave States, by almost any number of extracts from the pens of intelligent gentlemen of the South, descriptive of that condition, undoubtedly far more truthful than flattering, but I will not take the space for the purpose. The simple and transparent truth is, that through the entire slaveholding section of our country, slavery has almost as effectually blotted out the manhood of a considerable portion of the poor whites as it has of the negro slaves. They seem to be content to live and desire nothing more.—Destitute of ambition and enterprise, if by fishing or hunting, or an occasional day's labor, they can realize enough to satisfy the wants of to-day, they are equally unconcerned about the morrow, and the great hereafter. The entire mass of non-slaveholders seem strangely stricken as with a palsy, in the presence of the slaveholders, and suffer themselves to occupy a position of political inferiority and insignificance, which is utterly unbecoming to their numbers and real power.

Nothing stronger proves the benumbing and weakening influence of slavery upon the white non-slaveholding working man than this. Nothing certainly goes so far to justify proud slave-drivers, like Governor Hammond of South Carolina, in speaking of the whole laboring class as the "mudsills of society," and nothing comes so near establishing its truth, as that they should constantly permit men entertaining such sentiments as he avowed to become their Representatives in Congress, in the Senate, and in their State Legislatures. Look at these figures. Of the *six millions, two hundred and twenty-two thousand, four hundred and eighteen* white residents of the slave States in 1850, only *three hundred forty-seven thousand, five hundred and twenty five* were slave owners and slave hirers, and of the *five hundred ninety-two thousand and four* white residents of Missouri, only *nineteen thousand, one hundred and eighty-five* had a direct interest in slave property—yet to read the speeches of Southern Congressmen and politicians, one might conclude that almost the entire Southern people were interested in slaves, and that slavery was their cherished institution, when in fact the interests of the great majority of the citizens of the slave States are directly adverse to those of the slaveholders, and slavery is the institution of but a lean minority of them, and a curse to all the balance. The question of emancipation involves not only the freedom of the blacks, but the delivery of a large number of the white men of the slave States from a thraldom almost as severe.

It is one of the advantages accruing to the poor man, from free society, that the general distribution of wealth, and the equalization of social distinctions incident upon it, are peculiarly calculated to encourage a desire for independence and the disposition to secure a homestead.—Hence in the free States the small number of families "settled" who are not thus provided.—The value of this blessing, as it may justly be termed, cannot be overcalculated. It is what every head of a family ought to strive to acquire, and what every one with reasonable industry can acquire. But in slaveholding communities large plantations are the rule, which is discouraging to small proprietorships in the soil. Large landed possessions always tend to absorb the small. Slavery has another tendency yet more prejudicial to the acquisition of limited interests in the soil. By the distinction it keeps up in the public estimation between laboring and being labored for, it causes the possession of land to appear of little value, unless the proprietor is able to own slaves in whole or in part to cultivate it.

In this view of the matter, we can understand what would otherwise appear an incomprehensible mystery, that Missouri should have so many citizens without an interest in the soil, when she has millions of acres yet unentered, much of it rich and valuable, to be had at from twelve and one half to twenty-five cents per acre, and that the slave States at large should have so many landless men when their soil everywhere can, when compared with that of the free States, be had at an exceedingly small price.

As that portion of my fellow citizens of Missouri, who are not slaveholders, and do not labor for others for wages, have no interest in common with slavery, they can have none in its maintenance; but inasmuch as they are generally the owners of property, and with the exception of tradesmen and professional men, labor with their hands, and consequently suffer their full share of whatever stigma attaches to manual labor in slaveholding society, while their property would share whatever advance in value would follow upon making Missouri a free State, I do not deem it necessary to use arguments in favor of emancipation with them.

Another "War with France" Alarm!

Arbitrary Course of the French Government in the Matter of the "Charles et Georges," to Domineer Over Europe?—The British Lion in a Rage!

The dispute between France and Portugal has abruptly determined. After appealing in vain to the decisions of courts of law, to the faith of treaties, to the obvious justice of her own cause, and to the arbitration of any neutral Power whom France might wish to choose, the Cabinet of Lisbon has succumbed to the menace of instant violence addressed to her by a Power with whom it would be utterly fruitless for her to contend. Never was the voice of truth and justice more arrogantly overpowered by a mere superiority of physical force; never were the rights of a brave and independent nation more recklessly trampled upon; never was the understanding upon which the affairs of Europe since the Peace of 1815 have been conducted more entirely cast to the winds. For poor Portugal nothing has been left but to fold her arms and record her protest against the violence to which she has been forced to submit; for Europe there remains a precedent fraught with danger. The forcible rescue of the French slaver—for which it is now clearly proved to be—from the hands of the Portugeso authorities, is one of these events which are sure, sooner or later, to exercise an important influence on the actions and feelings of mankind. It is the germ, we fear, of much evil, and therefore, before we part with it, before it is effaced for a time by the torrent that is rushing past us, we must briefly recapitulate its details, in order to bequeath to our readers a clear idea of a transaction which we may reasonably expect to re appear in its results before any longer time has been suffered to elapse.

The French Government obtained from Portugal permission to carry negro emigrants to the Island of Reunion from the Portuguese colony of Mozambique. The part of the coast of Mozambique from which the emigration was to take place was accurately defined and agreed upon.—The French vessel Charles et Georges was seized on a part of the coast where she was not authorized to go by the agreement, with a hundred and ten negroes on board. It appears by the testimony of the agent of the French Government, Nicholas Correl, that thirteen of these Negroes came on board voluntarily, with their hands tied behind their backs by their own permission,—With respect to these, the same agent admits that the agreement had not been complied with, and that it was his intention to report this violation of his duty on the part of the captain as soon as he arrived at Reunion. The vessel was provided with false docks and other accessories used by slavers. The ship was condemned as a lawful prize by the Court at Mozambique, and an appeal was lodged from that decision to the Court of Supreme Jurisdiction at Lisbon. It is almost impossible to imagine a clearer case.—The only point, indeed, on which it is understood that France relies is the presence of an accredited agent on board the ship, which, it is contended, afforded an irresistible presumption that no act of slaving was committed.

But what becomes of that irresistible presumption when that agent himself is the witness who proves the act of slave-trading, and represents the misconduct of the captain to have been so gross that it was his own intention to report it to the authorities as soon as he arrived at Reunion? The first duty of the French Government clearly was to await the decision of the court of justice at Lisbon, and to take no step until an adverse decision had been rendered, and to consider itself bound by that decision unless it was clearly contrary to reason and natural justice. The manner in which the French Government discharged this duty was to demand the surrender of the condemned ship in 48 hours, to send two men-of-war into the Tagus, and to make a demonstration of hostility by pointedly neglecting to salute the King of Portugal in his own river. Finding that France would not await the decision of a Portuguese court of justice, the Cabinet of Lisbon proposed to leave the dispute to the arbitration of any neutral power whom France might choose to appoint; and, that being refused, except as to the quantum of damages, the Portuguese Government was compelled, under protest, to deliver up the ship condemned for Slave-trading by a Court of competent jurisdiction mainly on the evidence of the representative of the nation that claims her release; and so far the present matter terminates.

Henceforth we must, however unwillingly, adopt it as a matter too clear for dispute, that France will not allow the right of smaller and weaker Powers to that shelter and protection which the laws of nations has hitherto thrown around them. Justice is for equals,—dictation, menace, and, if necessary, force, for inferiors, in power. The use of a law, and more especially the law of nations, is the protection of the weak against the strong, and for any weaker nation which is so unfortunate as to have a difference with France that protection no longer exists. A second most lamentable result of this affair is, that we fear we can no longer count upon France as among those nations who are bent upon discouraging in every manner the continuance of the Slave Trade. The power of the Empire has been put forth to shelter a very flagrant violation of what has hitherto been understood to be the policy of France in this respect. It is one thing not to maintain an armed squadron for the purpose of putting down the Slave Trade, it is another to rescue a vessel duly convicted by the menace of an immediate appeal to arms. There is too much reason to fear that this untoward result of the noble efforts which the Portuguese Government, and especially the Colonial Minister, the Viscount Sa Da Bandeira, has been making for the suppression of the Slave Trade, will relax the zeal of a Power which thus meets with insult and menace in the very quarter from which it had a right to expect countenance and support.

Nor is this all. We cannot conceal from ourselves that the manner in which Portugal has been dealt with was caused by a suspicion, utterly unfounded, as we know it to be, that she was acting in this manner under the peculiar instigation of England. It occurs to us to ask, what part has the English Government taken in this transaction? We know our Government has not extended to Portugal any material support,—has any moral influence been exerted in her favor? Have we interceded for her with our great ally? Have we strengthened her with the assurance of our approbation of the honorable course she has adopted, and promised her that, in case of extremity, we would not forget the duties imposed by our obligations? She has done her duty; we should be glad of some proof that we have not been wanting in ours.

EMBALMING THE DEAD.—It is well known that there are still in existence corpses of persons who died ten centuries ago, which have been preserved by a process reckoned among the "Lost Arts"—the process of embalming the dead. Almost every one has gazed upon some relic from the catacombs, some mummy, but never with much admiration for the human lineaments thus transmitted from antiquity. How long after embalmment the ancient dead retained the aspect they wore in life, we have no means of knowing. But the most intimate friend of a mummied person would be sorely puzzled to recognize the features of the once living original.

In our day the embalming chemists, doctors and undertakers are approximating to something more satisfactory in this art of immortalizing mortality. We have a process by which the pallid corpse may be made to assume the color and freshness of life, and retained thus for an indefinite period of time. Dr. Holmes, of Williamsburg, Long Island, has been for many years experimenting with the dead till he has at last succeeded in preserving a corpse in complete freshness and purity *for nine years*. The subject of the experiment remains, and, it is believed, will remain, indefinitely, unaffected by time or season.

On the 3rd instant, a young merchant named Robert Mason, from Syracuse, New York, died at No. 106 Morgan street in this city, of inflammation of the brain. His decease occurred in the morning, and in the evening the remains were embalmed by the well known undertaker, Mr. John A. Smithers, of Chestnut street. The death hue was removed from the countenance of the subject; and the body has since been in the office of Mr. Smithers, an object of great interest to numerous spectators. It will there remain till Monday next, when it will be despatched to Syracuse. The corpse is apparently in a state of perfect purity, and totally exempt from the slightest trace of decomposition.—*Missouri Democrat.*

TO THE PUBLIC.

In answer to the numerous letters addressed to me on the subject of the Mustang Liniment, I would say that I have had no connection with that article for several years. It was invented by me, and while put up under my control and supervision, was universally accepted by the public, as the best liniment in the world. In 1854 I sold out my interest in it to other parties, and since that time it has passed through the hands of several persons, most of whom have been so unscrupulous as to manufacture it of inferior and cheaper articles, and thus to entirely destroy its value as a medical remedy, trusting for success in selling to its former highly established reputation. Its present proprietors have gone so far as to substitute other articles in its composition for those in the original prescription, so that the Mustang Liniment now vended possesses no one of the distinguishing characteristics of the genuine article, as it was originally invented and manufactured by me. These parties, to enable themselves with more facility to foist their worthless and injurious article on the public, use *my name* as its sponsor, calling it "Bragg's" Mustang Liniment, and cautioning the public to beware of any other Bragg's Liniment as an imposition. This is done with a view of exciting a prejudice against "BRAGG'S ARCTIC LINIMENT," an article more recently invented by me, and possessing all the virtues of the original Mustang, with some improvements—the result of experience and later discoveries—and manufactured by Bragg & Burrowes, which firm is composed of my son, Oliver T. Bragg, and Michael Burrowes. This article is superior in many respects to the Mustang, when it was put up pure and in good faith, and is immeasurably superior to the article now vended as the Mustang Liniment. It is also the only liniment manufactured to which my name is appended by my authority or consent. In conclusion, I cannot hold myself responsible for any of the evil results of using the Mustang Liniment now vended, and especially after this public disclaimer of any connection with its proprietorship or manufacture.

Respectfully, A. M. BRAGG, M. D.

VICTORIOUS OVER PAIN.

BRAGG'S ARCTIC LINIMENT.

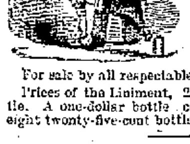
Agony or ease!—Sickness or health!—Life or death! These are the questions involved in the adoption or rejection of this specific by the martyrs to external diseases and injuries. Having received the indorsement of the distinguished savan, the late Dr. KANE, and its efficacy tested during two awful Winters in the regions of eternal ice, it is now coming into general use in every section of the civilized globe, and its marvelous cures are everywhere exciting astonishment.

THE AFFLICTED REJOICE.

HUNDREDS and THOUSANDS have tested its virtues, and are rejoicing in freedom from long lingering PAIN and DISEASE which other remedies had failed to cure. Have you the BRONCHITIS, NEURALGIA, RHEUMATISM, SCROFULA, EAR-ACHE or TOOTH-ACHE—Are you afflicted with OLD SORES—Suffering from BRUISES, SPRAINS, CORNS, SORE EYES, PILES?

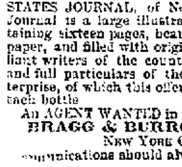
THE ARCTIC LINIMENT will afford you instant relief. Everybody is liable to

BURNS AND SCALDS.



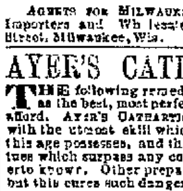
For these dreadful accidents the ARCTIC LINIMENT should be kept on hand, for it affords sure and immediate relief, often saving from death. Every steamboat and railroad train should keep it. Who that has heard the shrieks of anguish uttered by the scalded and maimed victims of explosions and collisions, does not feel that some means of relieving their torture should always be accessible? Such does exist in this balmy pain controlling agent. It is

THE MOTHERS' COMPANION.



It cures CAKES IN THE BREAST, SORE NIPPLES, SORE LIPS, PIMPLES, &c. Ladies who prize a pure skin void of pimples, blotches, scurf and all discolorations and excrescences, should attack these trespassers on beauty's domain as soon as they appear with the ARCTIC LINIMENT. It is excellent for the Hair, giving it a healthy glossy appearance. It is

GOOD FOR MAN AND BEAST.



It is a sovereign remedy for the various diseases with which horses are afflicted, curing the most alarming cases of BRUISES, SPRAINS, STRING-HALT, WOUNDS, SCRATCHES, SWEENY, SPAVIN, RING-BONE, BIG-HEAD, POLL-EVIL, &c. No farmer, Every stable keeper, or any person owning valuable HORSES, should be without this valuable remedy.

For sale by all respectable Druggists and Dealers.

AYER'S CATHARTIC PILLS.

THE following remedies are offered to the public as the best, most perfect, which medical science can afford. AYER'S CATHARTIC PILLS have been prepared with the utmost skill which the medical profession of this age possesses, and their effects show they have virtues which surpass any combination of medicines hitherto known. Other preparations do more or less good; but this cures such dangerous complaints, so quick and so surely, as to prove an efficacy and power to uproot disease beyond anything which men have known before. By removing the obstructions of the internal organs and stimulating them into a healthy action, they renovate the fountains of life and vigor—health courses anew through the body, and the sick man is well again. They are adapted to disease, and disease only, for when taken by one in health they produce little effect. This is the perfection of medicine. It is antagonistic to disease, and no more. Tender children may take them with impunity. If they are sick they will cure them, if they are well they will do them no harm.

Give them to some patient who has been prostrated with bilious complaint; see his bent-up, tottering form straighten with strength again; see his long-lost appetite return; see his clammy features blossom into health. Give them to some sufferer whose foul blood has burst out in scrofula till his skin is covered with sores; who stands, or sits, or lies in anguish. He has been drenched inside and out with every potion, which ingenuity could suggest. Give him these PILLS and mark the effect; see the scabs fall from his body; see the new, fair skin that has grown under them; see the late leper that is clean. Give them to him whose angry humors have planted rheumatism in his joints and bones; move him, and he screeches with pain; he too has been soaked through every muscle of his body with liniments and salves; give him these PILLS to purify his blood; they may not cure him, for, alas! there are cases which no mortal power can reach; but mark, he walks with crutches now, and now he walks alone; they have cured him. Give them to the lean, sour, haggard dyspeptic, whose gnawing stomach has long ago eaten every smile from his face and every muscle from his body. See his appetite return, and with it his health; see the new man. See her that was radiant with health and loveliness blasted and too early withering away; want of exercise, or mental anguish, or some lurking disease has deranged the internal organs of digestion, assimilation, or secretion, till they do their office ill. Her blood is vitiated, her health is gone. Give her these PILLS to stimulate the vital principle into renewed vigor, to cast out the obstructions, and infuse a new vitality into the blood.—Now look again—the roses blossom on her cheek, and where lately sorrow sat joy bursts forth from every feature. See the sweet infant wasted with worms. Its wan, sickly features tell you without disguise, and painfully distinct, that they are eating its life away. Its pinched up nose and ears, and restless sleepings, tell the dreadful truth in language which every mother knows. Give it the PILLS in large doses to sweep these vile parasites from the body. Now turn again and see the ruddy bloom of childhood. Is it nothing to do these things? Nay, are they not the marvel of this age? And yet they are done around you every day.

BOERHAVE'S
HOLLAND BITTERS.

THE CELEBRATED HOLLAND REMEDY FOR
DYSPEPSIA,
DISEASE OF THE KIDNEYS,
LIVER COMPLAINT,
WEAKNESS OF ANY KIND,
FEVER AND AGUE,
And the various affections consequent upon a disordered
STOMACH OR LIVER,

Such as Indigestion, Acidity of the Stomach, Colicky Pains, Heartburn, Loss of Appetite, Despondency, Costiveness, Blind and Bleeding Piles. In all Nervous, Rheumatic and Neuralgic Affections, it has in numerous instances proved highly beneficial, and in others effected a decided cure.

This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Professor, Boerhave. Its reputation at home produced its introduction here, the demand commencing with those of the Fatherland scattered over the face of this mighty country, many of whom brought with them and handed down the tradition of its value. *It is now offered to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.*

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit and infusing new health and vigor in the system.

READ CAREFULLY! The Genuine highly concentrated Boerhave's Holland Bitters is put up in half-pint bottles only, and retailed at ONE DOLLAR per bottle. The great demand for this truly wonderful Medicine has induced many imitations, which the public should guard against purchasing.

Beware of Imposition! See that our name is on the label of every bottle before you buy.

THE LIVER
INVIGORATOR!
PREPARED BY DR. SANFORD,
COMPOUNDED ENTIRELY FROM GUMS,

IS one of the best purgative and Liver medicines now before the public, that acts as a *Cathartic*, easier, milder and more effectual than any other medicine known. It is not only a *Cathartic*, but a *Liver* remedy, acting first on the *Liver* to eject its morbid matter, then on the stomach and bowels to carry off that matter, thus accomplishing two purposes effectually, without any of the painful feelings experienced in the operations of most *Cathartics*. It strengthens the system at the same time that it purges it; and when taken daily in moderate doses, will strengthen and build it up with unusual rapidity.

The LIVER is one of the principal regulators of the human body; and when it performs its functions well the powers of the system are fully developed. The stomach is almost entirely dependent on the healthy action of the *Liver* for the proper performance of its functions; when the stomach is at fault, the bowels are at fault, and the whole system suffers in consequence of one organ—the LIVER—having ceased to do its duty. For the diseases of that organ one of the proprietors has made it his study, in a practice of more than twenty years, to find some remedy wherewith to counteract the many derangements to which it is liable.

To prove that this remedy is at last found, any person troubled with LIVER COMPLAINT, in any of its forms, has but to try a bottle, and conviction is certain.

These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease,—effecting a radical cure.

BILIOUS ATTACKS are cured, AND WHAT IS BETTER, PREVENTED, by the occasional use of the LIVER INVIGORATOR.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently, and cures COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

☞ One dose of two teaspoonfuls will always relieve SICK HEADACHE.

One bottle taken for female obstruction removes the cause of the disease, and makes a perfect cure.

Only one dose immediately relieves CHOLIC, while

One dose often repeated is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA.

☞ Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

☞ One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite, and makes food digest well.

One dose often repeated cures CHRONIC DIARRHEA in its worst forms, while SUMMER and BOWEL complaints yield almost to the first dose.

One or two doses cures attacks caused by WORMS in Children; there is no surer, safer, or speedier remedy in the world, as it never fails.

☞ A few bottles cures DROPSY, by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER AND AGUE, CHILL FEVER, and all FEVERS of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

ALL WHO USE IT ARE GIVING THEIR UNANIMOUS TESTIMONY IN ITS FAVOR.

☞ MIX WATER IN THE MOUTH WITH THE INVIGORATOR, AND SWALLOW BOTH TOGETHER.

THE LIVER INVIGORATOR

IS A SCIENTIFIC MEDICAL DISCOVERY, and is daily working cures almost too great to believe. It cures as if by magic, *even the first dose giving benefit*, and seldom more than one bottle is required to cure any kind of LIVER Complaint, from the worst *Jaundice* or *Dyspepsia* to a common *Headache*, all of which are the result of a DISEASED LIVER.

PRICE ONE DOLLAR PER BOTTLE.

A Card from Dr. James M. Jarrett,

OF THE NEW YORK LUNG INFIRMARY.—My connection for the past eight years with the above institution, as Chief Physician, and a twelve years' course of steady devotion to the cure of Pulmonary Consumption and its kindred diseases, together with my unrivaled opportunities and advantage of pathological research—aided not a little by a perfect system of *Medical Inhalation*—has enabled me to arrive at a decisive, direct, and successful course of treatment for the positive cure of all diseases of the *Throat, Lungs, and Air-Passages*. By Inhalation, the vapor and curative properties of medicines are directly addressed to the diseased organs and the integument. I do not advise the use of Medical Inhalation of any kind, to the exclusion of *general treatment*; and although I consider it a useful adjuvant in the proper management of these fearful and often fatal diseases, yet I deem it very necessary that each patient should have the benefit of both *general* and local treatment. The success of my treatment in the above diseases, and the high character of the Institution over which I have so long had the honor to preside, are too well known to need any eulogy or comment from me. At the solicitation of many private and professional friends, through whose philanthropic aid the above charity has been long and liberally supported, after due consideration, I have concluded to make such arrangements as will bring benefit of my experience and treatment within reach of all, and not to confine myself, as heretofore, to those only who entered the Infirmary, or who were able to visit me at my office. Hoping therefore that the arrangement will give entire satisfaction, both to my professional brethren and the public, I would respectfully announce in conclusion, that *I can now be consulted personally or by letter*, on all diseases as above, and that the medicines, the same as used in the Institution, prepared to suit each individual case. *Inhaling Vapors, Medical Inhalers, &c., &c.*, will be forwarded to any part of the United States or the Canadas. TERMS—My terms for treatment by letter are as follows, viz: $12 per month for each patient, which will include medicine sufficient for one month's use; also, Inhaling Vapor, and an Inhaling Apparatus. Payment as follows: $6 to be paid to Express Agent on receipt of the box of Medicine, and the balance $6 at the expiration of the month, if the patient be cured or is entirely satisfied with the treatment. Patients, by giving a full history of their case, and their symptoms in full, can be treated as well by letter as by personal examination. Patients availing themselves of *Dr. Jarrett's* treatment may rely upon immediate and permanent relief, as he seldom has to treat a case over thirty days. Letters for advice promptly answered. For further particulars address JAMES M. JARRETT, M. D.,
No. 586 Broadway, cor. Twelfth st., N. Y.

P. S.—Physicians and others visiting the city are respectfully invited to call at the Infirmary, where many interesting cases can be witnessed, and where our *improved apparatus* for the inhalation of medicated vapor can be seen and inspected. sep8h146d6mo

Private and Confidential Medical Advice,

AT the MILWAUKEE VENEREAL HOSPITAL, established for the cure of Syphilis, Seminal Weakness, and the infirmities of youth and maturity, by Dr BARNES.

Dr. BARNES takes pleasure in announcing to the citizens of Milwaukee and other places, that his office is at No. 12 Wisconsin street.

READ AND REFLECT.—The afflicted would do well to reflect before trusting their health, happiness, and in many cases, their lives, in the hands of physicians ignorant of this class of maladies. It is certainly impossible for one man to understand all the ills the human family are subject to.

YEARS OF PRACTICE, exclusively devoted to the treatment and study of Syphilis, Gonorrhœa, Gleet, Strictures, effect of solitary habits, ulcers upon the body, throat, nose or legs, pain the head or bones, and all Mercurial Affections, and all impurities of the Blood whereby the constitution has become enfeebled, enables the Doctor to offer relief to all who may place themselves under his care.

Dr. B. makes no charges for short consultations.—Those requiring much advice should enclose a small fee sufficient to compensate for the time required to write the answer.

A NEW AND IMPORTANT ENTERPRISE.

IMPROVED FLOUR MILL.

THOMAS B. SUPLEE having in operation a STEAM FLOUR MILL, which combines CHEAPNESS, COMPACTNESS, and PORTABILITY, and at the same time PRODUCING THE BEST QUALITIES OF FLOUR, solicits for this important invention the attention of MILLERS MILL OWNERS, MACHINISTS, MERCHANTS, CAPITALISTS, and the public in general.

This Superior Flour Mill embodies every principle calculated to recommend its universal adoption. To demonstrate to practical men the great utility of this invention, it will be requisite to present facts that cannot be refuted.

The leading characteristic of this unrivalled Flour Mill, are its

ECONOMY, DURABILITY, AND EFFICIENCY

And its plain, practical arrangement.

This compact and efficient FLOUR MILL, including its complete grinding and bolting machinery, OCCUPIES A SPACE ONLY 4 FEET WIDE, 8 FEET HIGH, AND 20 FEET LONG, manufacturing within this contracted space, and at a single operation, Family Extra, superfine, and all the lower grades of Flour, and the different kinds of offal.

THE FLOUR PRODUCED IS EQUAL IN QUALITY TO THE MOST SUPERIOR FLOUR, manufactured from a given amount of wheat by the best merchant mills in the United states.

From the very limited amount of room occupied by the Mill, it is obvious that there are many establishments possessing steam or water power, in which one or more of these Mills could, with convenience, be put into operation at a comparatively low cost, and realize to the owner a sure, continual and handsome profit.

One of these Mills, with a pair of Burrs only 36 inches in diameter, and requiring only a little over a 6 horse power to propel the entire grinding and bolting machinery, will manufacture, on an average,

Two Barrels of Flour per Hour.

Producing a barrel of excellent flour from as small a quantity of wheat as any other Mill in the country.

Instead of raising and lowering the Spindle and Burr connected with it, the Burrs in this Mill are adjusted by raising and lowering only the upper Burr, it freely balancing by its own gravity, so that its face is always perfectly parallel with the face of the lower Burr. As the faces of the Burrs are thereby effectually caused to be always exactly parallel with each other, the Burrs will produce flour of a perfectly even texture, and grind with great rapidity with a small amount of power.

THE BOLTING MACHINERY of this improved Flour Mill is, by far, the most efficient, convenient, simple and compact that has yet been invented. It embraces an ingenious, though extremely simple arrangement of mechanism, by which any portion of the partially bolted material may be conveyed to the Eye of the Mill Burr and re-ground with the wheat; or, it can be re-bolted without re-grinding any portion of it; or, a part of it may be re-ground, and a part of it rebolted, at the same time; or, it may altogether, or any part of it, be rejected.

In the erection of a Merchant Flouring Mill, the time and expense of getting up a large building, with cumbrous machinery, and requiring a great amount of power, costing thousands of dollars, is, in a great measure, saved by adopting this Improved Mill, as it can be put up in a few weeks, and at a cost of only hundreds, when it takes thousands of dollars to complete one of the old Mills.

Its simplicity of construction, its freedom from liability to get out of order, its admirable adaptation to the manufacture of Flour on a limited as well as the most extensive scale, suited to the demand, together with its compact, portable form, and the small amount of power required to propel it, form a combination of qualities which recommend its universal adoption.

THOMAS B. SUPLEE having purchased of the inventor, the RIGHT FOR WISCONSIN AND NORTHERN ILLINOIS, of this unrivaled Flour Mill is prepared to sell Mills and Rights on such terms and at such prices as will enable business men of large or small means, to invest their capital in a proper business, and one that can be commenced in a very short space of time.

The public are respectfully invited to call and examine the Mill in operation on Sycamore Street, between West Water and Second Streets, Milwaukee, Wisconsin.

Fresh ground Flour and Feed for sale at the Mill.

Correspondents are requested to give the name of their Post Office, County and State, as plain as possible.

MORE TO BE ADMIRED THAN THE

RICHEST DIADEM

EVER

Worn by Kings or Emperors.

WHAT? WHY A BEAUTIFUL HEAD OF HAIR.

Because it is the ornament *God Himself* provided for all our race. Reader, although the rose may bloom ever so brightly on the glowing cheek, the eye be ever so sparkling, the teeth be those of pearls, if the head is bereft of its covering, or the hair be snarled and shriveled, *harsh* and *dry*, or worse still, if sprinkled with gray, nature will lose more than *half* her charms. Prof. Wood's Hair Restorative, if used two or three times a week, will restore and permanently secure to all such an ornament. Read the following and judge. The writer of the first is the celebrated Pianist, Thalberg:

DR. WOOD:— NEW YORK, April 19th, 1858.

Dear Sir: Permit me to express to you the obligation I am under for the entire restoration of my hair to its original color. About the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your Hair Restorative, it soon recovered its former hue. I consider your Hair Restorative as a very wonderful invention—quite efficacious as well as agreeable. I am, dear sir, yours truly,
S. THALBERG.

"Drych a'r Gwyliedydd,"
WELSH NEWSPAPER OFFICE,
113 Nassau st., April 12, 1858.

PROF. O. J. WOOD—*Dear Sir:* Some month or six weeks ago I received a bottle of your Hair Restorative and gave it to my wife, who concluded to try it on her hair, little thinking at the time that it would restore the gray hair to its original color; but to her, as well as my surprise, after a few weeks' trial it has performed that wonderful effect by turning all the gray hair back to brown, at the same time beautifying and thickening the hair. I strongly recommend the above Restorative to all persons in want of such a change in their hair.
CHARLES CARDEW.

NEW YORK, July 25, 1857.

PROF. O. J. WOOD: With confidence do I recommend your Hair Restorative, as being a most efficacious article I ever saw. Since using your Hair Restorative my hair and whiskers, which were almost white, have gradually grown dark; and I now feel confident that a few more applications will restore them to their natural color. It has also relieved me of all dandruff and unpleasant itching, so common among persons who perspire freely.
J. G. KILBY.

PROF. WOOD—About two years ago my hair commenced falling off and turning gray; I was fast becoming bald, and had tried many Remedies to no effect. I commenced using your Restorative in January last. A few applications fastened my hair firmly. It began to fill up, grow out, and turned back to its former color, black. At this time it is fully restored to its original color, health and appearance, and I cheerfully recommend its use to all. J. D. HOES.

Chicago, Ill., May 1, 1857.

The Restorative is put up in bottles of 3 sizes, viz: large, medium and small; the small holds ½ a pint, and retails for one dollar per bottle; the medium holds at least 20 per cent more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent more in proportion, and retails for $3.

RADWAY'S REGULATING PILLS.

DR. RADWAY & CO. have recently discovered a method for extracting from roots, herbs, plants and gums a nutritious extract of such wonderful nourishing power—which they have combined with Radway's Regulating Pills—that six of these pills will supply the blood with the same amount of nutrition as one ounce of ordinary bread; so that while the system is undergoing a thorough physicing, and regulating process, it daily becomes strengthened.

Persons afflicted with Liver Complaint, Dyspepsia, Heart Disease, Fullness of Blood and all Females who are subject to Irregularities, Hysteria, &c., are particularly recommended to use these Pills. They are pleasant to take—elegantly coated with gum—free from taste and will not gripe, sicken or weaken the system, or leave the bowels costive. Mothers nursing should likewise take one or two of these Pills once or twice per week. They will not only keep your system healthy and regular, but will protect your infants against Cramps and Pains in the stomach, and insure not only a healthy child, but will invest every child, thus suckled, with a sweet disposition.

ROXBURY, Mass.

DEAR MADAM:—The reputation of the Medical Discovery, in curing all kinds of humors, is so well established, by the unanimous voice of all who have ever used it, that I need not say anything on the subject, as the most skillful physicians and the most careful Druggists in the country are unanimous in its praise.

In presenting the Medical Discovery to your notice, I do it with a full knowledge of its curative powers, in relieving all, and curing most of the diseases to which you are unfortunately so liable. That most excruciating disease to an affectionate mother,

NURSING SORE MOUTH,

is cured as if by a miracle; your own temper is restored to its natural sweetness, and your babe from short and fretful naps to calm and sweet slumbers; and the Medical Discovery becomes a fountain of blessings to your husband and household.

In the more advanced stages of

CANKER

it extends to the stomach, causing

DYSPEPSIA

which is nothing but canker on the stomach; then to the intestines and

KIDNEYS

creating a sinking, gone feeling, and an indifference even to the cares of your family.

Your stomach is

RAW AND INFLAMED,

your food distresses you, and you can only take certain kinds, and even of that your system does not get half the nourishment it contains, as the acrimonious fluid of the canker eats it up; then your complexion loses its bloom and becomes sallow, or greenish, and your best day is gone. For want of nourishment your system becomes loose and flabby, and the fibres of your body become relaxed. Then follow a train of diseases which the Medical Discovery is peculiarly adapted to

CURE;

Palpitation of the heart, pain in the side, weakness of the spine and small of the back, pain of the hip-joint when you retire, irregularity of the bowels, and also that most excruciating of diseases the

PILES.

How many thousands of poor women are suffering from this disease and pining away a miserable life, and their next door neighbor does not know the cause. I wish to impress on your mind that good old proverb, "an ounce of prevention is better than a pound of cure." In the

MEDICAL DISCOVERY

you have both the preventive and the cure, with this great and good quality, that it will never, under any circumstances, do you an injury. Yours truly,
DONALD KENNEDY.
